

# چه اشتراکی میان این دانشمندان

به بشریت علم خود را مدیون آنها می‌داند، وجود دارد

<b>Galileo Galilei</b> (Physicist)	<b>گالیلئو گالیله</b>
<b>Robert Boyle</b> (Father of Chemistry)	<b>رابرت بویل</b>
<b>George Boole</b> (Creator of Symbolic logic)	<b>جورج بول</b>
<b>Blaise Pascal</b> (Mathematician and Theologian)	<b>بلیز پاسکال</b>
<b>Matthew Maury</b> (Created the science of oceanography)	<b>متیو موری</b>
<b>David Brewster</b> (Gave his name to several laws of light and Optics)	<b>دیوید بروستر</b>
<b>Edward Jenner</b> (Physician - The most famous champion of vaccination)	<b>ادوارد جنر</b>
<b>Geroges Cuvier</b> (Created the science of Paleontology, using bones dug from beneath Paris)	<b>جورج کوویر</b>
<b>Johannes Kepler</b> (Astronomer - The 3 laws of planetary motion. Advanced Copernicus' heliocentric theory)	<b>یوهانس کپلر</b>
<b>Louis Pasteur</b> (Scientist - Developed the germ theory of disease, Proved the impossibility of the spontaneous generation of life)	<b>لویی پاستور</b>
<b>James Clerk Maxwell</b> (United electricity and magnetism with light in his famous theories in which he predicted the discovery of radio waves)	<b>جیمز کلرک ماکسول</b>
<b>Isaac Newton</b> (Mathematician - Laws of Gravitation and Motion, developed Calculus. Major contributions to Optics, Physics, Math and Astronomy)	<b>ایزاک نیوتون</b>
<b>Michael Faraday</b> (Chemist - Discovered Benzene, Electromagnetic induction, lines of force, relationship between polarized light and magnetic fields)	<b>مایکل فارادی</b>
<b>Arthur Eddington</b> (Was an early champion of Relativity theory and stayed on the cutting edge of Stellar theory throughout his entire life)	<b>آرتور ادینگتون</b>
<b>William Thomson Kelvin</b> (Physicist - First and second laws of thermodynamics. Absolute temp scale. Trans-Atlantic cable)	<b>ویلیام توماس کلونین</b>
<b>Thomas Young</b> (Was the first to perform a double slit experiment and to show that light acted as a wave)	<b>توماس یانگ</b>
<b>Gregor Mendel</b> (First discovered the laws of genetics with his now famous studies of the garden pea)	<b>گرگور مندل</b>
<b>Anton von Leeuwenhoek</b> (Scientist - Inventor of Microscope and first describer of Bacteria and Cells)	<b>آنتون ون لیونهووک</b>
<b>Robert Grosseteste</b> (The first man known to have explicitly spelled out the Scientific Method)	<b>رابرت گروستست</b>
<b>Nicolaus Copernicus</b> (Astronomer - Developed the heliocentric theory of the solar system)	<b>نیکلاس کوپرنیک</b>
<b>Georges Lemaitre</b> (The first mathematical Big Bang theory of creation)	<b>جورج لومتر</b>
<b>George Berkeley</b> (Showed how images form upside down in the eye)	<b>جورج برکلی</b>
<b>James Joule</b> (Physicist - Co-founder of Thermodynamics)	<b>جیمز ژول</b>
<b>Joseph Lister</b> (Physician - Antiseptic surgery)	<b>جوزف لیستر</b>
<b>Gottfried Wilhelm von Leibniz</b> (Co-inventor of Calculus)	<b>گاتفرید ویلهلم فن لایبنیز</b>
<b>Johnannes Weyer</b> (Father of Psychiatry)	<b>یوهانس وایر</b>
<b>And...</b>	<b>و...</b>
